Anyscan A30

Scan Any, Scan Quickly

Compatible with IOS and Android System

Anyscan is a full system diagnosis kit and easy to carry in your pocket, working together with mobile phones and tablets. Both iOS and Android platform are supported. Full brands and systems are covered. What's more, it has many special functions, such as service lightreset, DPF regeneration and EPB reset.

Friendly Design: There is light inside the OBDII port to help you find vehicle's OBDII location. And it has battery voltage display to make sure you do diagnosis within safe voltage.

- All OBDII functions and vehicle's software are available and free
- Read/clear codes for all available systems
- Display live data in text & graph for data review
- Export the data streams as CSV files
- Support active test (Bi-directional control)
- Support up to 5 specific functions
- Auto VIN technology identifies vehicles automatically
- Generate repair reports of tested vehicles and support PDF format for easy sharing and printing

Plug into vehicle OBD directly →

Or connect to vehicle OBD via extension cable

Bluetooth connection →
