

# X<sub>2</sub>Prog Series

## Professional ECU/EEPROM Reader/Writer

The X<sub>2</sub>Prog series is a professional ECU and EEPROM Reader/Writer. The series includes 5 components: X<sub>2</sub>Prog ECU Programmer, X<sub>2</sub>AEP Advanced EEPROM Programmer, X<sub>2</sub>CANBox CAN Communication Interface, X<sub>2</sub>TPU Transponder Precoding Unit, and X<sub>2</sub>MBIR IR Key Precoding Unit. It is divided into 4 bundle levels: X<sub>2</sub>Prog EnhancedPack, X<sub>2</sub>Prog MBPack, X<sub>2</sub>Prog ProPack, X<sub>2</sub>Prog UltraPack. This series is suitable for expert maintenance technicians.

# Functions Listed

## X<sub>2</sub>Prog ECU Programmer

- Base module for all plugins
- EEPROM Reading/Writing (Chip off board) (with EEPROM board)
- ECU Reading/Writing (BOOT method) (with XTA004 cable) (MC9S12 not included)

## X<sub>2</sub>AEP Advanced EEPROM Programmer

- EEPROM Reading/Writing (Chip onboard/offboard)
- MC9S12 ECU Reading/Writing Plugin (BOOT method) (with XTA004 cable)
- \*Allows M600 to read MC9S12 ECUs

## X<sub>2</sub>CANBox CAN Communication Interface

- ECU Programming (Bench Method) (with XTA005 cable)
- Mercedes-Benz Communication Control in All-Keys-Lost situations (with XTA006 cable)

## X<sub>2</sub>TPU Transponder Precoding Unit

- Transponder Reading/Writing
- Remote Frequency Reading
- Transponder Status Reading

## X<sub>2</sub>MBIR IR Key Precoding Unit

- Mercedes-Benz Key Programming
- Read EIS/EZS Data (with XTA007 emulator)
- Read/Write IR Key Information
