

TS100 Pro

Universal programmable tire pressure sensor

Premium Chip
Dual-Frequency Integration
Precision Matching
Long Battery Life
Reliable TPMS Solution

Why Choose TS100 Pro?

The TS100 Pro is a universal programmable TPMS sensor designed for repair shops and car owners, offering OEM-grade quality and long-term reliability. Whether for routine maintenance or emergency repairs, TS100 Pro ensures accurate and efficient tire pressure monitoring.

Six Key Advantages

- **High-End Chip:** Features the latest imported NXP 88 series chip for precise data and stable performance.
- **Wide Compatibility:** One sensor fits 98% of vehicles, reducing the need for multiple models and saving costs.
- **Long-Lasting Battery:** Over 5 years of normal use, minimizing the hassle of frequent replacements.
- **Adjustable Fit:** 10°~45° adjustable angle for flexible installation and enhanced adaptability.
- **Precision Data:** Accurately measures high/low pressure and temperature, ensuring driving safety.
- **Warranty Guarantee:** 3-year / 60,000 km warranty for total peace of mind.

Specification

| | |
|-----------------------------|--------------------|
| Battery Life | ≥5 years |
| Operating Temperature | -40°C ~ 105°C |
| Size | 46.1 × 16.2 × 25mm |
| Adjustment Angle | 10°~45° adjustable |
| Waterproof Rating | IP67 |
| Pressure Monitoring Range | 0-900kPa |
| Pressure Accuracy | ±10kPa |
| Weight (without air nozzle) | 138 |
| Shell material | PA66+GF30 |
